

Spinach Giant Nobel F1 Hybrid

Description: Giant Nobel is a spinach hybrid that offers growers high resistance to downy mildew races 1-10. A high-yielding variety, it produces smooth, round, dark-green and pliable leaves for improved harvest quality. It is well adapted for fresh market and processing use.

Maturity: Approximately 43 days.

Disease Resistance: Pfs 1-7, 9, 11 (HR).

Comments: The plant has an erect posture and has very high yields. Leaves are smooth, large, and dark green. It is suitable for home gardens and processing. This variety is fast growing for fall and winter crops.
