

Tomato

Dual Purpose, F₁

944

Big strike

Remus

Romeolus

Sawan

Wafa

Tomato

944 F₁ Hybrid

Description

The plants are determinate, medium size with excellent foliage cover. The fruits are deep globe shape, light green shoulder color, medium to medium large size (170-200 grams), and very firm.

Maturity

Mid-season

Disease Tolerance

Verticillium wilt race 1, Fusarium wilt race 1 and 2, Alternaria stem canker, Tobacco mosaic virus, Root knot nematodes and Stemphylium.

Comments

This tomato is a long shelf life variety.

Tomato

Big Strike F₁ Hybrid

Description

Plant is determinate, compact, medium to medium large size with good cover. Fruit is deep globe shaped, light green shoulder, good color, large size and very firm.

Maturity

Mid-season

Disease Tolerance

Verticillium wilt, Fusarium wilt race 1 and 2, Nematode

Comments

Big Strike is a good dual-purpose variety (processing and fresh market; hand-picked or machine harvest). Adapted to semi-arid climatic growing conditions. Fruit is large. With additional nitrogen, water and wide spacing it can be used as a market variety in certain areas of the world.

Tomato

Remus F₁ Hybrid

Description

Plant is determinate, medium large size with good cover. Fruit is square-round shaped, uniform shoulder color, firm and very smooth. Fruit size is 110 grams on average.

Maturity

Medium Early

Disease Tolerance

Verticillium wilt, Fusarium wilt race 1 and 2, Alternaria stem canker, Stemphylium, Root knot nematodes.

Comments

Remus is a good dual purpose tomato.

Tomato

Romeolus F₁ Hybrid

Description

Plant is indeterminate, medium size with good cover. Fruit is square-round shaped, uniform shoulder color, firm and very smooth. Fruit size is 95 grams on average.

Maturity

Medium Early

Disease Tolerance

Verticillium wilt, Fusarium wilt race 1 and 2, Alternaria stem canker, Stemphylium, Root knot nematodes.

Comments

Romeolus is good for fresh market.

Tomato

Sawan F₁ Hybrid

Description

Plant is determinate, compact, medium to medium large size with good cover. Fruit is round globe shaped, no blossom end, shiny bright red color, very uniform, very firm and high yielding. Fruit size is 150-160 grams.

Maturity

Mid-season

Disease Tolerance

Verticillium wilt, Fusarium wilt race 1 and 2, Alternaria stem canker, Nematode

Comments

Sawan is one of the best outdoor, dual-purpose tomatoes ever bred (processing and fresh market; hand-picked or machine harvest). It can be successfully grown for a wide variety of uses and in a wide range of climates. It is an excellent long-distance shipper.

Tomato

Wafa F₁ Hybrid

Description

Plant is determinate, compact, medium to medium large size with good cover. Fruit is round shaped, very firm, uniform and concentrated. Fruit turns deep red at maturity and maintains hardness. Fruit size is 150 grams on average.

Maturity

Mid-season

Disease Tolerance

Verticillium wilt, Fusarium wilt race 1 and 2, Alternaria stem canker, Nematode

Comments

Wafa is a multipurpose tomato for open field planting (processing and fresh market; hand-picked or machine harvest). It can be successfully grown for a wide variety of uses and in a wide range of climates. It is an excellent long-distance shipper.
